

## NOTICE OF CONSTRUCTION

# Southern California Edison Devers-Palo Verde No. 2 Project – Devers-Valley Transmission Line Pacific Crest Trail Crossing

Southern California Edison (SCE) contractors will begin construction of the Devers-Valley Transmission Line portion of the Devers-Palo Verde No. 2 Project (DPV2). The Devers-Valley Transmission Line portion of DPV2 intersects the Pacific Crest Trail north of the San Bernardino National Forest and Mount San Jacinto. Upon completion, DPV2 will help bring renewable and conventional generation to the power grid and help meet California's renewable energy goals.

**Construction Period:** December 2011 – March 2014 (Intermittent)

Construction is currently planned for but may not be limited to Monday through Friday from 7:00 a.m. to 6:00 p.m.  
(schedule may change depending on weather and other factors)

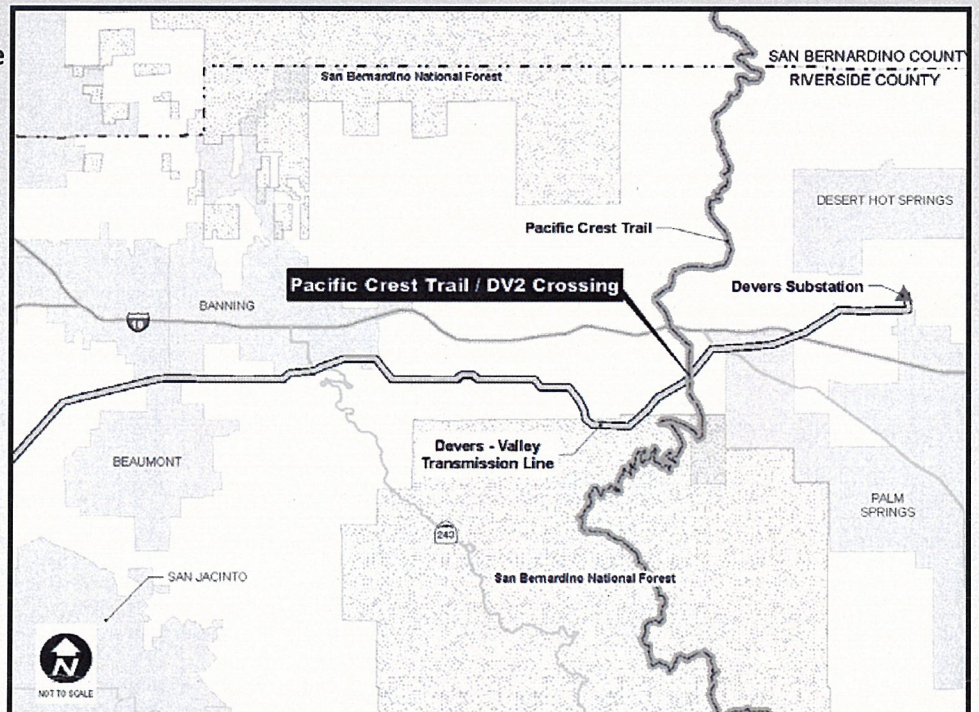

### Construction Activities:

#### Devers Valley Transmission Line

#### Pacific Crest Trail Crossing

Located approximately 1 mile southwest of the intersection of Highway 111 and Snow Creek Road, west of Palm Springs, California:

- Transmission line tower material staging, assembly and construction
- Transmission line tower foundation excavation and construction
- Helicopter operations
- Material delivery and storage
- Storage and use of construction materials, equipment, vehicles, supplies, water and fuel
- Transmission line wire stringing

**Every effort will be made** to avoid impacts to recreational activities of residents and hikers on the Pacific Crest Trail. A temporary detour of the Pacific Crest Trail to avoid construction areas will be established as needed. SCE understands that construction may be inconvenient to local residents. We greatly appreciate your patience as we move to complete construction as quickly and safely as possible.
