

## Southern Sierra Regional Addendum

Open Positions: One **Field Project Specialist – Southern Sierra**

One 20-week, seasonal position starting mid-June and ending late October. This position will be participating in a variety of trail projects across the region, with an emphasis on deferred maintenance, dry stone masonry, and log out, with a physical ability requirement of lifting 50 lbs. They will primarily support corps crews, while occasionally assisting other PCTA staff leading volunteers. Work may take place at the following locations (subject to change):

- Golden Trout and South Sierra Wilderness on the Inyo National Forest
- John Muir Wilderness on the Sierra National Forest
- South Sierra and Domeland Wilderness on the Sequoia National Forest
- Bureau of Land Management - Ridgecrest unit

### Southern Sierra Regional Office and Duty Station:

Given that this position will be working throughout the region, the duty station is negotiable; areas between Lone Pine and Ridgecrest, CA being most applicable. Field Project Specialists work under the direct supervision of the Southern Sierra Regional Representative. When not in the field, the Field Project Specialist will work from an agreed upon remote duty station.
